Old Line Capital Invests in One Health Group *Press release*

Bowie, Md., [December 21, 2023] – Old Line Capital Partners (www.oldlinecap.com) announced today that they have made a significant investment in One Health Group (OHG), makers of Voyce (www.onehealthgroup.com) – an innovative, comprehensive, and analytics-based animal health and wellness platform. OHG will use the funds to continue development and enhance their unique offering. Voyce works for virtually any species and breed of animal, covering a wide range of market verticals and use cases for animal health professionals and caretakers. Albert Di Rienzo, President & Co-Founder of OHG stated: "It's an honor and pleasure to be an Old Line Capital Partners' portfolio company. From the very first interaction through investment, their process was well defined, and it was a particular joy to be able to meet so many of the membership at their Fall gathering. I look forward to a close and continuing strategic relationship."

"Old Line Capital is excited to work with Albert, Mark, and their team as they rapidly bring Voyce to market", stated Bill Dunahoo, an OLC General Partner and Deal Co-Lead for OHG. "The need is there, the technology is proven, and the economic and emotional benefits are clear. The ability to monitor the health of any animal from the family pet to the basic farm production animal to a high-performance race horse provide endless market verticals"

About One Health Group

OHG is a medical technology innovator with a mission to bring breakthrough health diagnostics, monitoring, screening and advanced analytics to the animal health industry. OHG's flagship offering, Voyce, is an extensively patented platform technology that can take many form factors and is designed for use across many different species in industrial, research, companion, and working sectors. The first Voyce product will be a wearable device for companion animal remote health monitoring that provides truly personalized health care using intelligent sensors, advanced cloud analytics and artificial intelligence. OHG also offers a comprehensive set of apps to allow veterinarians to access early diagnostics and outcome tracking for their patients. OHG has partnered with leading research universities and veterinarians in support of its R&D efforts.
